

Kong Toy Release Form

We now have Kongs that can be "rented" for fun when your dog is boarding with us!

The Extreme (Black) Series of Kong Dental Toys give dogs a real chewing workout that helps clean teeth and gums. The toys are made of puncture-resistant rubber for strength and durability. They are non-splintering, non-abrasive, and do not get sharp when chewed. We only use the strongest Kongs to minimize the risk that your dog may be able to tear it apart. We fill the Kong with hydrated Science Diet Sensitive Stomach dog food and then freeze it to make a treat that is tasty and can be hours of enjoyment for your pet while you are away.

Pet(s) Name:	Date(s):			
Client Name:				
I would like to purchase a total of _____ Kong treats for my pet(s) while they are boarding at River City Veterinary Hospital. Treats are \$4.00 each. (Kong is rented, not purchased). Kongs will be rented while supplies last. We will do what we can to avoid running out, but if we run out, the applicable charges will be reversed.				
I would like the following size (Kong Co. recommendations in parenthesis):				
Medium(up to 35lbs)	Large(30-65lbs)	Extra Large(60-90lbs)	XX Large(85+lbs)	
I would like them to be given in the _____ am _____ pm _____ both.				
I would like them to be given every day _____ I would like them to be given at this specified frequency _____				

My dog has no previous history of eating Kongs and is NOT destructive with toys. If my dog does any damage to a Kong, I understand that River City Veterinary Hospital will not give my dog any more Kongs.

I understand that my dog will NOT be supervised while playing with this toy and that consuming Kong toys can lead to serious illness and death. By signing this form, you acknowledge that the risk of harm may include serious illness or death. This is a risk that you must be willing to accept as animals can be unpredictable and River City Veterinary Hospital will not be held responsible.

River City Veterinary Hospital does not recommend giving Kongs to 2 or more dogs that are staying in the same suite in case they become aggressive and fight over the toys and food. If you elect to do this regardless of our recommendation, River City Veterinary Hospital will not be held responsible for any injuries that the dogs do to each other.

If your dog becomes ill or injured during his/her stay with us and you elect medical treatment, you are responsible for 100% of the charges.
